OASIQ
NEW YORK

In the man made world, everything has been designed somewhere and by someone, we at OASIQ like to design thoughtfully, responsibly and intelligently for our customers and their family.

OASIQ is interested in producing furniture that is not a throw away, that will grow with them and can add each piece into their collection as the customer see fit. Our furniture is purposefully designed and caters to the young at heart, the seat height varies for customer's ease of mobility and playful elements such as the Hamilton Rocking Horse is the cornerstone of our inclusive design philosophy.

It's simple. We love watching people take pleasure in our furniture in the great outdoors or the indoors.

INSPIRED BY NATURE. CRAFTED FOR PEOPLE.

OASIQ is passionate about enriching people's experience of outdoor living. We believe that an appealing outdoor setting, crafted with attention to detail, contributes to people's feeling of well-being. By creating beautiful and unique outdoor furniture that reflects the simple elegance of nature's own creations, we hope to inspire you to join us on our journey of inspiration. A journey to discover the way outdoor living is meant to be:
Inspired by nature. Crafted for people.

	SERAC 094 Slim tables		

OUR SOURCE OF INSPIRATION

OASIQ outdoor furniture connects people to the beauty of their surroundings. The simple elegance of nature's own creations is always the source of our inspiration. Luckily for us, nature's secret was unlocked centuries ago. The beauty of the spiral pattern created by a sunflower's central cluster of florets is expressed by the golden ratio. This ratio holds the key to shapes that are pleasant to behold and is the bedrock of our approach.

CREATING ORIGINALS

Inspired by vintage designs that have endured for decades by winning people's hearts, OASIQ outdoor furniture has a distinctive yet versatile style. Our journey in search of new ideas has led to original creations that combine modern design insights and high-tech materials with skilled craftwork. We love to work with designers who share our vision of creativity and our ambition to exceed people's expectations.

SKILL AND DEDICATION

OASIQ finds inspiration in nature to craft outdoor furniture for people. Behind the scenes are the people whose skills and dedication help to achieve our vision at factory level. They form the backbone of our company.

Our factory in Thailand has been specialised in the manufacturing of materials for outdoor use since 2001. Every aspect of production is handled by specialists in their field of expertise. The cutting of the steel and aluminium parts, the moulding and joining of the teak components, the hand polishing and powder coating, the quality control at every stage - every step is carried out in-house.

CRAFTSMANSHIP

OASIQ relies on the skills of people who pay meticulous attention to detail to create the top-quality furniture discerning customers expect. Traditional working methods that rely on craftsmanship, such as hand weaving, are used side by side with state-of-the-art modern technology to produce outdoor furniture that is both sturdy and perfectly finished. Personal attention is given to every piece of furniture before final approval.

“LOOK DEEP INTO NATURE, AND THEN YOU WILL UNDERSTAND EVERYTHING BETTER.”

ALBERT EINSTEIN
PHYSICIST, PHILOSOPHER, SPEAKER

Q FOR QUALITY

Quality is in our DNA. OASIQ's roots can be traced back to a long tradition of craftsmanship in fine leather, sturdy metal parts and weatherproof textiles for equestrian sports. This makes us especially qualified to meet the high demands made on outdoor furniture. The state-of-the art materials we use are guaranteed to endure the elements, as well as to meet the high standards of comfort and flexibility modern life sets.

COPENHAGEN

We are excited to introduce the COPENHAGEN collection. The material of this collection consists of only teak and rope. It is designed by Meneghello Paoletti Associati.

The armchair is stackable, the upper part of the back seat is soft and organic whereas the lower part is rigid and sharp as well as the rest of the seat. The easy bent legs connect those two opposites and contrasting worlds. The final result is a light, essential and iconic dining chair.

The COPENHAGEN family includes two different models of dining tables, three coffee-tables, a lounge chair, a dining armchair, a loveseat and two stools. They all speak the same language of sophisticated yet understated comfort.

BRYGGEN

Scandinavian design continues to be a source of inspiration for architects and interior designer. The signature characteristics of Scandinavian designs — whether it be Hans Wegner’s Wishbone Chair or Poul Henningsen’s iconic pendant lighting is simplicity and function. Walls are commonly left bare and spaces are left relatively sparse to emphasize this principle. Even toys are designed as simple, wooden objects, and tents made from dowels and fabrics are frequently found in Scandinavian playrooms. That is why we name this iconic collection BRYGGEN, a homage to the UNESCO World Heritage Site. These stools can easily be “docked” under any bar table or bar counter in your home, restaurant or hotel. Our BRYGGEN stools collection are no exception, made of just two materials, teak and stainless steel; minimalistic and functional furniture that let you hygge in style and offers a considered solution for simple living.

MARO

Ready to take the art of relaxation to the next level? MARO's excellently proportioned teak frame supports king-sized cushions for an opulent lounging experience. Fitted cushions pamper you with their superior comfort. The simple lines of the handwoven rope add a playful twist to the sturdy teak frame.

MARO's modular elements offer the versatility expected of modern outdoor furniture. The sofa and oversized club chairs turn a terrace into an inviting outdoor retreat. Various chaise lounge and corner seat combos introduce a clubby vibe to set the scene for entertaining.

HAMILTON

The HAMILTON collection has a contemporary look using the finest teak. Each piece of furniture is crafted using a generous slab of teak in order to ensure the rectilinear diecut is seamlessly aligned and its unique curvature to support your back and rest your hands. HAMILTON collection is suitable for both indoor and outdoor use.

RIAD

Defined by transparency and lightness, RIAD takes its inspiration from midtwentieth century furniture designs by French designer Mathieu Matégot. Softly curved perforated aluminum frames, tactile rounded teak armrests and weatherproof luxurious cushions combine to create a beautifully proportioned modular sofa system, offering the perfect setting for relaxing and sharing quality time outdoors.

Available in three stylish colours - anthracite, white or pastel green, the RIAD collection consists of an eye-catching club armchair, a 2-seater sofa and six different seating modules to create almost limitless individual design possibilities. A rectangular coffee table and a square side table with either matching ceramic or contrasting teak tops complete this elegant and welcoming lounge collection.

SANDUR

On SANDUR you are almost suspended in thin air. And, as everyone knows, it doesn't get more comfortable than that. All thanks to a nifty design that uses a unique open weave to reduce contact with hard surfaces to a minimum. On this eye-catcher, you're always sitting pretty.

SANDUR's distinctive patterns accentuate the breezy character of this model. A tubular stainless steel frame supports a strong and weatherproof rope weave. The rope is handwoven on to the frame by skillful artisans who take pride in the outstanding quality of their work. With a variety of stylish color combinations, this collection is ideal for any outdoor setting.

YLAND

Six components, two finishes, endless combinations. Thanks to YLAND's unsurpassed flexibility, you will solve the puzzle every time. Build a daybed for daydreaming, a lounge sofa for night-time entertaining. Turn it into a family-sized couch, or just divide it up into separate islands.

YLAND's design takes modular flexibility to the next level. A lightweight aluminum and open-weave frame makes it easy to explore its multiple uses. And to top it off you can customize your YLAND with the outdoor cushions of your choice. Both the covers and fillings are guaranteed to be weatherproof 24/7.

SKAGEN

Modern design at its best! The new SKAGEN collection is a take on classic Scandinavian furniture design that combines expertly crafted teak and handwoven outdoor rope to create a contemporary yet timelessly elegant dining chair collection. True to its roots, SKAGEN's organic shapes and contrasting clean lines are developed to be functional and to create ergonomic dining chairs, which can be used inside or out.

The SKAGEN dining chairs are accompanied by either a generously proportioned, matching dining table with slatted teak table top or a substantial extending teak table offering room for up to twelve people, perfect for a get together and entertaining larger groups. A striking deck chair and footstool with comfortable weatherproof outdoor cushions for the finishing touch reflect the dining chair design and further enhance the SKAGEN collection.

COCO

Meet the new kid on the block. A chair with the winning personality of a style icon. COCO's allure is unmistakable from afar, and irresistible up close. Designed to stand out in a crowd, this chair brings a sophisticated sense of leisure to that outdoor space where having a good time is always on the menu.

COCO's funky flair is defined by its original blend of materials. Steel frame and aluminum seat panels are powder coated in the same color to form a striking ensemble. Elegant aluminum legs heighten the contrast.

DIUNA

Teak now has flair to spare. Indoors or out, DIUNA steals the show with panache. This unrivaled design relies on superior craftsmanship to sculpt sturdy teak to ultimate elegance. The result is a breath of fresh air. From now on, dining, lounging and sunbathing are truly chic on teak.

DIUNA perfectly balances refined clean lines with organic curves that highlight the wood's beautiful sandy grain. Slender panels of layered teak have been specially designed and crafted to ensure solidity with a graceful touch. This makes the furniture exceptionally lightweight for its kind, and all models are stackable.

DINING ON NATURE'S LAP.

MARK GABBERTAS

DESIGNER OF COCO, SANDUR, SERAC AND MACHAR

MARK GABBERTAS IS A MULTIPLE AWARD-WINNING DESIGNER WHO HAS PIONEERED MANY NEW FORMS AND PROCESSES IN FURNITURE DESIGN. HE WAS AT THE FOREFRONT OF THE RENAISSANCE IN THE BRITISH DESIGNER/MAKER MOVEMENT IN THE 1990S BEFORE ESTABLISHING THE GABBERTAS STUDIO IN 2001. THE DESIGN STUDIO CURRENTLY LEADS THE WAY IN EXPERIMENTING WITH NEW TECHNOLOGIES AND HAS EARNED ACCOLADES FOR PUSHING THE BOUNDARIES OF OUTDOOR FURNITURE DESIGN.

“OUR OBJECTIVE IS TO CREATE DESIGNS THAT HAVE CHARACTER THROUGH THEIR SIMPLICITY.”

“As a studio we find ourselves being drawn repeatedly to designs that fulfil the rigorous demands made of furniture for outdoor use, while managing to retain a lightness of touch that makes them suitable for interior use too. I suspect we enjoy the challenge.”

“When I was young, I would play a game called cat’s cradle whereby two people would make patterns with a single loop of string and pass them to each other. What proved interesting during the development of SANDUR was the ability of the weave to follow a different profile than might be expected from the frame itself and to create an independent 3-dimensional shape within the skeletal steel structure. This gave us

more freedom to allow the frame to express itself and take on a character of its own, while at the same time providing the support in key areas for the weave to perform the essential ergonomic functions. It is the nature and degree of the interdependence between frame and weave that fascinated and inspired us in this project.”

GIJS PAPAVOINE

DESIGNER OF MARO

DESIGN VIRTUOSO GIJS PAPAVOINE EXCELS AT TAKING A SIMPLE IDEA TO ITS LOGICAL CONCLUSION. STRONG GRAPHIC ELEMENTS COMPLEMENTED BY AN INSPIRED USE OF BASIC SHAPES CHARACTERIZE HIS WORK. HIS QUEST FOR THE PERFECT MIX OF PURE LINES AND FUNCTIONALITY HAS MADE HIM A PEERLESS DESIGNER OF CHAIRS IN PARTICULAR. THIS CULMINATED IN GROUNDBREAKING DESIGNS IN WHICH GRACEFULLY ARCHED BACKS RAISED THE BAR IN TERMS OF SEATING COMFORT.

**“MY DESIGNS ALWAYS
STEM FROM A POWERFUL
BASIC FORM AND ARE
CHARACTERIZED BY
SIMPLICITY.”**

“My roots are in industrial design, not in art. My designs reflect this because they are uncomplicated, logical and practical. I start with a general idea and proceed to work it out on paper until the essential features of my design emerge. It's much like sculpting. As a designer I think it's also very important to stay in tune with the hustle and bustle of daily life. I thrive on chaos, and an important part of my inspiration is drawn from my encounters with the people I meet as I go about my day.”

“The MARO lounge sofa reflects my aim to combine overall simplicity with well-chosen prominent features. Exceptionally wide armrests merge into an open frame that surrounds oversized soft cushions, creating an effective expression of luxury. The solidity of the teak is in perfect balance with the softness of the cushions.”

MENEGHELLO PAOLELLI ASSOCIATI

DESIGNER OF SKAGEN AND RIAD

BOTH GRADUATED IN 2004 AT THE POLITECNICO DI MILANO, UNDER THE GUIDANCE OF ROBERTO PALOMBA AND PAOLO RIZZATTO, AFTER DIFFERENT INTERNATIONAL EXPERIENCIES - FROM CENTRAL SAINT MARTINS IN LONDON AND NORWEGIAN UNIVERSITY OF SCIENCE&TECHNOLOGY IN TRONDHEIM, TO KÖLN KISD UNIVERSITY AND EDF R&B IN PARIS, THEY SETUP THEIR STUDIO IN MILAN.

**SERIOUS AND ELEGANT WITH
A STRONG SENSE OF DESIGN.**

RIAD is a tribute to Matheui Mategot, a pioneering '50 French product designer who are known to use perforated sheet metal exquisitely. RIAD is a modular outdoor furniture collection characterized by its textured sheet metal backing that run the length of the sofa. The perforated sheet metal combined with teak on the armrest evoke an elegant, light and well balanced collection.

An external element that influence RIAD collection is "light". It represent a "trait d'union" between aesthetic and technology balance; the light draws infinite shapes and enrich a surface when it filters through the fine perforations of the sheet metal. Lights and shadow allow RIAD collection to interact with the world and the architecture that surround it.

SKAGEN is an outdoor furniture collection characterized by its use of teak and rope. With SKAGEN, we wanted to explore the "modernism school" of wood working, producing a timeless collection where elegance, organic shapes and functionality are combined.

HUGO DE RUITER

DESIGNER OF YLAND AND ATTOL

HUGO DE RUITER EXCELS AT STYLISH DESIGNS THAT INTELLIGENTLY BRIDGE THE GAP BETWEEN INDOOR AND OUTDOOR LIVING. AFTER STUDYING AT THE DESIGN ACADEMY IN EINDHOVEN (1986), HE DEVELOPED COLLECTIONS FOR A LONG STRING OF PRESTIGIOUS FURNITURE BRANDS. HIS DESIGNS HAVE WON KUDOS FROM FELLOW DESIGNERS AND CLIENTS FOR THEIR DISTINCTIVE MIXTURE OF CHARM AND FUNCTIONALITY.

“NOTHING LASTS FOREVER, BUT MY DESIGNS DO ATTEMPT TO BE YOUR FRIENDS FOR LIFE.”

“Outdoor furniture should be just as comfortable and sophisticated as indoor furniture, even though it is only used for a part of the year in most parts of Europe. And visually it should be pleasant to look at. Then, of course, there are extra demands regarding the durability of the materials because of harsh weather conditions. A stimulating challenge I love to meet.”

“The YLAND is a modular lounge group that expresses my philosophy perfectly. Exceptionally adaptable, it has endless seating combinations, from sofa to a luxurious lounge bed. The modular elements offer all the variations you’d expect to find indoors. But then in a lightweight, weatherproof aluminum and hand-woven rope construction perfect for outdoors. And with a choice of colourful cushions you can combine to suit your personal taste. Ideal for every outdoor moment.”

STUDIO PARADE

PAULIEN BERENDSEN AND ERIC SLOOT
DESIGNERS OF THE REEF

STUDIO PARADE CONTINUES TO CAPTIVATE PEOPLE WHO LOVE COHERENT, SIMPLE AND UNCLUTTERED DESIGN. THIS SEASONED DESIGNER DUO HAS BEEN CREATING REMARKABLE INDOOR AND OUTDOOR DESIGN FURNITURE TOGETHER SINCE THEY GRADUATED FROM THE DESIGN ACADEMY IN EINDHOVEN (1991). AND THERE IS MORE IN STORE.

“Our designs feel as if you’re wearing a well-cut suit. It’s a perfect fit and has a familiar, appealing feel to it. As if it’s already one of your favourite pieces. We always start with a silhouette and refine the design. We keep the lines clear and add subtle details. This avoids clutter while creating a distinctive look.”

“At first glance the slender REEF table looks simply inviting. Up to a point it is a timeless design with a no-nonsense ‘what you see is what you get’ attitude. But there is an element of surprise, because a section of the frame echoes the top, and unites the whole. The result is striking.”

**“INDOORS OR OUTDOORS,
WE DON’T MAKE
A DISTINCTION.
WE ALWAYS AIM TO
CREATE A SPACE PEOPLE
LOVE TO BE IN.”**

HANS DAALDER

DESIGNER OF CORAIL, DIUNA AND MUZE

HANS DAALDER'S WORK FEATURES A CLEAN-DESIGN AESTHETIC THAT MASTERFULLY BALANCES THE ADVENTUROUS WITH THE FUNCTIONAL. HE HAS HONED HIS SKILLS DESIGNING FOR RENOWNED FURNITURE BRANDS SINCE HIS GRADUATION FROM THE DESIGN ACADEMY IN EINDHOVEN (1989). HIS UNCOMPROMISING FOCUS ON THE QUALITY OF HIS CREATIONS HAS EARNED THEM A SPECIAL PLACE IN CLIENTS' HEARTS.

“FINDING THE RIGHT BALANCE OF DESIGN FEATURES, COLOUR, AND TEXTURE IS A PROCESS THAT INVOLVES KNOWING WHEN TO STOP.”

“Stripping an idea down to its essential parts, without sacrificing the richness of the experience is the most demanding part of my work. You can compare it to serving an excellent steak. In a good restaurant a choice piece, cooked to perfection, is served without a sauce. In the same way, a good design does not require elaboration. Together with my colleagues I pare an idea down until its core is revealed. It is finished when we can't help but feel it's right. That we'd put this new chair or table in our own home or garden.”

“The team at OASIQ share my ideas and commitment when it comes to delivering quality in design and use of materials.”

The aluminum CORAIL collection expresses a colourful sense of fun as well as a robust practicality. While the DIUNA sets a new standard for elegant outdoor teak furniture in a quiet, understated way.”

ERINO WADE

DESIGNER OF ASTOR

ERINO TEZUKA WADE WAS BORN IN JAPAN WHERE SHE GREW UP IN AN ARTISTIC ENVIRONMENT. AS A YOUNG ASPIRING DESIGNER, SHE MOVED TO THE UNITED STATES IN 1994 AND COMPLETED HER DEGREE IN FINE ARTS AND INTERIOR ARCHITECTURE AT THE PRESTIGIOUS ACADEMY OF ART UNIVERSITY IN SAN FRANCISCO, CA. TODAY SHE DESIGNS FOR A VARIOUS CLIENTS FROM HER QUIET STUDIO IN BOSTON AND CONTINUES TO INTEGRATE REFINED DESIGN PRINCIPLES WITH HIGHLY ENERGETIC CREATIVITY.

It's always been about more than just designing and making furniture. It started with a journey to explore the relationship between outside and inside, old and new, and east and west.

With an appreciation for classic forms and a desire for modern simplicity, the ASTOR Collection was created.

Inspired by Japanese wooden screens called kooshi; grillwork made up of fine pieces of wood arranged in various ways to form an open-work screen most often of vertical and horizontal elements, the ASTOR Collection not only marginally screen sights beyond it, but also such grills and elegant cutout motif still let in the air and light. While not actually forming a definite barrier, the set of

these pieces with screen details at least signal the existence of lounge space. Another aspect presented in this collection is its employment of minimalism and delicate weaving patterns seen in various Japanese baskets.

The name ASTOR came from a street in East Village, NYC in where many Japanese eateries, contrast to the rows of brick buildings, add Asian flare and coexist with modern arts and music scenes. Its background of blended culture of the street speaks precisely for this collection.

The ASTOR Collection pieces are individually crafted from aluminum and environmentally friendly all-

weather wicker from VIRO. OASIQ's attention to subtle details and choice of materials are more than a production mandate; it's the company philosophy.

Why not have the open and inviting form give a sense of ease and let everyday stress pass through. Welcome to the world of the ASTOR.

MATERIALS & SWATCHES

Aluminum is a lightweight metal that is very strong and durable. The alloy we use guarantees excellent resistance to corrosion and has outstanding material properties. All aluminum products in the OASIQ collection are polished by hand, which produces a very beautiful finish when painted. After polishing, the furniture is cleaned, chemically treated, and painted using an electro-statically applied polyester powder coating. This gives the furniture a very strong finish, making it scratch resistant and weatherproof.

Teak is a beautiful dense hardwood with a uniquely high natural oil content. This means that it easily withstands all kinds of weather conditions. Even without any form of protection, sun, rain and snow do not diminish the quality of this natural material. Our teak furniture is delivered to the customer untreated. Under the influence of weather conditions, teak furniture will slowly change colour to a silvery grey that perfectly matches its natural surroundings.

All stainless steel products in the OASIQ collection are made of Grade 304 stainless steel. This metal consists of various alloy elements such as iron, nickel and chromium. When exposed to air, a hard chromium-oxide layer is formed that protects the metal against corrosion. Our stainless steel products have been hand brushed to give their surface a satin-like shine that feels very smooth. The result is a corrosion resistant surface that is easy to clean and maintain.

All rope used in OASIQ woven furniture is manufactured from a combination of high performance Textilene® and solution-dyed Diversatex™ Olefin outdoor yarns. This rope is tough and durable, yet soft and supple. As the yarns are dyed all the way through and have excellent UV-resistant properties, these ropes will remain colourfast for many years and will withstand the rigours of outdoor use with style and elegance.

HPL (high pressure laminate) is a flat panel, based on thermosetting resins and wood-based fibres. These panels are manufactured under high pressure and at high temperatures. This process ensures that the resins in the core layers of the panel and on the surface bind with each other. The result is a homogenous panel of high density, which is very strong, durable and weatherproof.

OASIQ ceramic slabs are produced with an innovative technology, by compacting the material and then firing it in an electric kiln at temperatures over approx. 1220°C, suitably designed to ensure the product evenness. The slabs manufactured in this way are perfectly flat and can later be cut or trimmed with total size accuracy. The ceramic slab is highly scratch and abrasion resistant. It is frost resistant and suitable for all weather conditions.

OASIQ cushions are covered with Sunbrella fabrics. These fabrics have been especially developed for outdoor use and are made of solution-dyed yarns. This unique colouring process guarantees optimal UV-resistance and durability. Most of the covers can be removed for cleaning. The fabrics have also been treated with a water-repellent Teflon layer.

The inner cushions are made of a special weatherproof foam called QuickDry Foam. This is a cutting-edge, high-performance foam designed specifically for outdoor cushions. Manufactured from carefully selected high-grade material, QuickDry has extreme durability and strength. Its unique porous open-cell structure allows water to drain very rapidly and fresh air to circulate freely and continuously. OASIQ cushions are perfect for all year use.

All-weather wicker is used in our Astor collection and it consists of a material called Polypeel. It is a synthetic, tensile-strength polyethylene fiber. It is 100% recyclable, non-toxic, highly durable and insensitive to UV rays, temperature fluctuations an harsh weather conditions. The best part is, the material is resistant against rain, salt water and chlorine, so it's safe to be used at the beach and swimming pool side.

Sur Last® is a 100% solution dyed polyester fabric designed to be flexible and easy for manufacturers to use. Its urethane coating enhances the stability of the weave and allows for greater water resistance, while also minimizing shrinkage and stretching. Sur Last features a high UV, water and mold and mildew resistance and has excellent tear and abrasion resistance. It is also non-abrasive to gel coat and other popular marine finishes and offers outstanding silkscreen adhesion. Sur Last does not require a hot knife or serging during fabrication and resists unraveling. As with most coated products, for best results, the non-coated face of the fabric should be exposed to the sun. Sur Last® by Glen Raven, Inc. is also the maker of Sunbrella®

UPHOLSTERY CARE AND CLEANING

One of the best ways to keep Sunbrella® fabrics looking good is to brush off dirt before it becomes embedded in the fabrics and wiping up spills or cleaning soon after a stain occurs. The quicker you clean spills and stains, the easier they can be to remove.

- Try this first...** With a new spill or stain on your Sunbrella fabric.
- Blot (don’t rub) liquid spills with a clean, dry cloth. For oil-based spills, apply an aborbent such as corn starch, then remove with a straight edge.
 - Spray on a mild cleaning solution of soap (such as Dawn or Woolite) and water.
 - Rinse the fabric thoroughly to remove all soap residue.
 - Air dry.

Try this next... If your first try doesn’t get the stain completely out. Though Sunbrella fabrics can be used both outdoors and in, your cleaning methods should differ slightly indoors and out because of the fabrication and manufacturing of the furniture. We recommend using the appropriate cleaning instructions for your application.

CLEANING REMOVABLE FABRIC

Hand Washing
Soak fabric in a solution of ¼ cup mild soap per gallon of lukewarm water. Use a sponge or very soft bristle brush to lightly agitate the stain. Then rinse thoroughly to remove all soap residue, and allow fabric to air dry.

Machine washing
Some removable casings can be washed in the washing machine, however consult the furniture manufacturer before removing the casing as cushion construction may vary. To wash, first close all zippers. Machine wash in cold water on the delicate cycle with normal amounts of mild laundry detergent. For severe mold or mildew, add 1 cup of bleach. Allow fabric to air dry.

CLEANING NON-REMOVABLE FABRIC
Prepare a solution of ¼ cup mild soap per gallon of lukewarm water. Use a soft bristle brush to clean, allowing the cleaning solution to soak into the fabric. Rinse thoroughly to remove all soap residue and allow fabric to air dry.

Mold and mildew stains
Sunbrella fabrics do not promote mildew growth, however, mildew may grow on dirt and other foreign substances if not removed from the fabric.

- To remove mold or mildew:
- Prepare a solution of 1 cup of bleach and ¼ cup mild soap per gallon of water.
 - Spray on entire area and allow to soak into the fabric for 15 minutes.
 - Clean entire surface area with a sponge, clean towel or very soft bristle brush.
 - Rinse thoroughly to remove all soap residue.
 - Air dry.

For severe mold/mildew growth, bleach quantities may be increased.

It is best to clean the entire surface area of the fabric to avoid water rings and stains.

Retreating Sunbrella Fabrics
Sunbrella fabrics are treated with a proprietary water and stain repellent finish that is designed to last for several years, but may require replenishing after a thorough cleaning. Glen Raven® recommends 303® Fabric Guard™.

For more information, visit www.303products.com.

- Applying 303 Fabric Guard:**
- Clean Sunbrella fabric, using one of the cleaning methods.
 - Allow Sunbrella to completely air dry.
 - Apply 303 Fabric Guard in a well-ventilated area following instructions on the container.
 - Apply 303 in a thin, even coat and allow fabric to dry completely.
 - Apply a second thin, even coating of 303. (Two light coatings are more effective in restoring fabric water resistance than a single heavy coating.)

Helpful Hints
Avoid scrubbing, hard bristle brushes or any other abrasive cleaning method.

Sunbrella should only be allowed to air dry.

Protect the area around your Sunbrella fabric when using bleach or other chemical solvents that may discolor non-Sunbrella fabrics. Always rinse Sunbrella thoroughly.

Bleach can have harmful effects on the natural environment around you. Please follow all safety and environmental precautions according to the bleach label.

If fabric has some wrinkling, use an iron on the synthetic setting. As iron temperatures may vary, first test a small inconspicuous area before ironing the entire piece.

DO NOT use a steamer or an iron set to the steam setting.

Stain	Recommended Cleaning Solutions	Commercial Cleaner
Berry	Combine 1/4 cup dish-washing liquid and 1/2 cup - 1 cup white vinegar per 1 gallon water.	Upholstery cleaner such as Resolve®
Bird droppings Catsup or Mustard, Coffee, Cola, Egg (raw), Grape Juice, Milk, Tea	Combine 1/4 cup dishwashing liquid per 1 gallon water.	Upholstery cleaner such as Resolve®
Beer Food Color Urine Vomit	Combine 1/4 cup dish-washing liquid and 1/3 cup white vinegar per 1 gallon water.	Upholstery cleaner such as Resolve®
Butter, Grease, Oil Paint Wet/ Dried (latex, oil, lacquer) Salad Dressing, Shoe Polish (liquid), Suntan Lotion Tomato Juice Tree Sap	Apply cornstarch as an absorbent, remove excess with a straight edge, clean up residual with dish-washing liquid and water.	Upholstery cleaner such as Resolve® or strong degreaser
Blood (dried)	Combine 1/4 cup dishwashing liquid and 1/2 cup - 1 cup ammonia per 1 gallon water.	Hydrogen peroxide and upholstery cleaner such as Resolve®
Charcoal Pencil Marks	Vacuum, then clean with 1/4 cup dishwashing liquid per 1 gallon water.	Upholstery cleaner such as Resolve®
Chewing Gum	Treat with isopropyl alcohol. Then clean with 1/4 cup dishwashing liquid per 1 gallon water.	Upholstery cleaner such as Resolve®
Chocolate	Combine 1/4 cup dish-washing liquid and 1/2 cup hydrogen peroxide per 1 gallon water.	Upholstery cleaner such as Resolve®

AFTER CLEANING WITH THESE RECOMMENDED SOLUTIONS, PLEASE RINSE FABRIC THOROUGHLY AND ALLOW TO AIR DRY.

Stain	Recommended Cleaning Solutions	Commercial Cleaner
Crayon	Treat with isopropyl alcohol. Then clean with 1/4 cup dishwashing liquid per 1 gallon water.	Carbona™ Stain Devils for Ink and Crayon
Ink (india, ballpoint) Nail Polish	Treat with volatile solvent (acetone 100%). Then clean with soap and water and rinse thoroughly	Upholstery cleaner such as Resolve®
Kool-Aid	Combine 1/4 cup dishwashing liquid per 1 gallon water and rinse thoroughly	Upholstery cleaner such as Resolv
Iron Rust	Treat with CLR® and rinse thoroughly.	Rust remover such as CLR®
Mildew	Combine 1/4 cup dishwashing liquid and 1 cup bleach per 1 gallon water.	No commercial cleaner recommended. A stronger percentage of bleach may be necessary for severe mildew.
Shoe Polish (wax)	Apply heated iron over towel. Apply cornstarch as an absorbent, remove excess with a straight edge, clean up residual with dishwashing liquid and water.	Upholstery cleaner such as Resolve®
Wax (candle)	Apply heated iron over towel. Treat with isopropyl alcohol. Then clean with 1/4 cup dishwashing liquid per 1 gallon water.	Wax remover such as Carbona™ Stain Devils for Glue, Gum, and Nail Polish
Wine	Combine 1/4 cup dish-washing liquid, 1/3 cup white vinegar and 1/2 cup - 1 cup isopropyl alcohol or hydrogen peroxide per 1 gallon water.	Upholstery cleaner such as Resolve®

PAULO COELHO
AUTHOR, LYRICIST, POET

OASIQ's warranty policy for our teak, stainless steel and aluminum frames is three years and one year for our cushions. The warranty policy covers manufacture defects with normal usage. The warranty for the powder coating is two years and covers peeling, blistering or cracking. Teak is a naturally oily wood and in some instances may stain the cushions that OASIQ will not be held responsible for. Fine cracks in teak are normal occurrences that are non-structural and do not yield the product defective. OASIQ is not responsible for maintenance performed on any piece of furniture except otherwise done by OASIQ. All claims must be submitted with a photograph and repair and/or replacement will be at our discretion. All of our furniture is made to order and is subject to a 30 percent restocking fee for all returns. Please note that all custom orders are final sale and will not be accepted as a return.
