CREATING ORIGINALS

Dedicated to enriching the alfresco living experience, we are thrilled to announce our continued membership with the non-profit creative advocacy organization, Be Original Americas. The nonprofit's mission is to inform, educate, and influence manufacturers, artisans, design professionals, and consumers about the economic, ethical, and environmental value of authentic design.

We take pride in being part of an organization that champions originality and protects unique designs and as a company, we've always been committed to creating original pieces. This commitment extends to the designers we collaborate with, partnering only with creative minds who strive to create something singular, exploring new materials and styles, rather than modifying existing designs. We also believe in nurturing the next generation of designers, which can only thrive if their creativity is protected."

INSPIRED BY NATURE.
CRAFTED FOR PEOPLE.

OUR SOURCE OF INSPIRATION

OASIQ outdoor furniture connects people to the beauty of their surroundings. The simple elegance of nature's own creations is always the source of our inspiration. Luckily for us, nature's secret was unlocked centuries ago. The beauty of the spiral pattern created by a sunflower's central cluster of florets is expressed by the golden ratio. This ratio holds the key to shapes that are pleasant to behold and is the bedrock of our approach.

MARK GABBERTAS IS A MULTIPLE AWARD-WINNING DESIGNER WHO HAS PIONEERED MANY NEW FORMS AND PROCESSES IN FURNITURE DESIGN. HE WAS AT THE FOREFRONT OF THE RENAISSANCE IN THE BRITISH DESIGNER/MAKER MOVEMENT IN THE 1990S BEFORE ESTABLISHING THE GABBERTAS STUDIO IN 2001. THE DESIGN STUDIO CURRENTLY LEADS THE WAY IN EXPERIMENTING WITH NEW TECHNOLOGIES AND HAS EARNED ACCOLADES FOR PUSHING THE BOUNDARIES OF OUTDOOR FURNITURE DESIGN.

DESIGNER OF COCO, SANDUR, SERAC AND MACHAR

MENEGHELLO PAOLELLI ASSOCIATI BOTH GRADUATED IN 2004 AT THE POLITECNICO DI MILANO, UNDER THE GUIDANCE OF ROBERTO PALOMBA AND PAOLO RIZZATTO, AFTER DIFFERENT INTERNATIONAL EXPERIENCES - FROM CENTRAL SAINT MARTINS IN LONDON AND NORWEGIAN UNIVERSITY OF SCIENCE & TECHNOLOGY IN TRONDHEIM, TO KÖLN KISD UNIVERSITY AND EDF R&B IN PARIS, THEY SETUP THEIR STUDIO IN MILAN.

DESIGNER OF COPENHAGEN, SKAGEN AND RIAD

LEE YI-RONG IS POSSIBLY THE ORIGINATOR OF THE FIELD OF BIRD CARVING. IN 1996, HE BEGAN BIRD WATCHING AND IN 1988 HE READ AN ARTICLE ABOUT BIRD CARVING IN A JAPANESE MAGAZINE AND DECIDED TO GIVE IT A TRY. IN 2015 AND 2016 HIS WORKS WON TOP PRIZE IN THE MASTER CLASS MINIATURE CATEGORY AT BIRD CARVING COMPETITIONS IN JAPAN.

DESIGNER OF HAMILTON

HANS DAALDER'S WORK FEATURES A CLEAN-DESIGN AESTHETIC THAT MASTERFULLY BALANCES THE ADVENTUROUS WITH THE FUNCTIONAL. HE HAS HONED HIS SKILLS DESIGNING FOR RENOWNED FURNITURE BRANDS SINCE HIS GRADUATION FROM THE DESIGN ACADEMY IN EINDHOVEN (1989). HIS UNCOMPROMISING FOCUS ON THE QUALITY OF HIS CREATIONS HAS EARNED THEM A SPECIAL PLACE IN CLIENTS' HEARTS.

DESIGNER OF CORAIL, DIUNA AND MUZE

OASIQ is a modern outdoor furniture company dedicated to enriching the alfresco living experience. Specializing in refined materials especially teak and traditional handcrafting techniques. The brand was founded in 2001 to fill a real market need for long-lasting outdoor furniture. With a Q for quality, OASIQ offers unparalleled customization options—from adjusting the height of a seatback to bespoke materials and colors—with no minimum requirement and fast order turn-arounds and 90% of OASIQ products can be quick-shipped.

DESIGN VIRTUOSO **GIJS PAPAVOINE** EXCELS AT TAKING A SIMPLE IDEA TO ITS LOGICAL CONCLUSION. STRONG GRAPHIC ELEMENTS COMPLEMENTED BY AN INSPIRED USE OF BASIC SHAPES CHARACTERIZE HIS WORK. HIS QUEST FOR THE PERFECT MIX OF PURE LINES AND FUNCTIONALITY HAS MADE HIM A PEERLESS DESIGNER OF CHAIRS IN PARTICULAR. THIS CULMINATED IN GROUNDBREAKING DESIGNS IN WHICH GRACEFULLY ARCHED BACKS RAISED THE BAR IN TERMS OF SEATING COMFORT.

DESIGNER OF MARO

HUGO DE RUITER EXCELS AT STYLISH DESIGNS THAT INTELLIGENTLY BRIDGE THE GAP BETWEEN INDOOR AND OUTDOOR LIVING. AFTER STUDYING AT THE DESIGN ACADEMY IN EINDHOVEN (1986), HE DEVELOPED COLLECTIONS FOR A LONG STRING OF PRESTIGIOUS FURNITURE BRANDS. HIS DESIGNS HAVE WON KUDOS FROM FELLOW DESIGNERS AND CLIENTS FOR THEIR DISTINCTIVE MIXTURE OF CHARM AND FUNCTIONALITY.

DESIGNER OF YLAND AND ATTOL

STUDIO PARADE (PAULIEN BERENDSEN AND ERIC SLOOT) CONTINUES TO CAPTIVATE PEOPLE WHO LOVE COHERENT, SIMPLE AND UNCLUTTERED DESIGN. THIS SEASONED DESIGNER DUO HAS BEEN CREATING REMARKABLE INDOOR AND OUTDOOR DESIGN FURNITURE TOGETHER SINCE THEY GRADUATED FROM THE DESIGN ACADEMY IN EINDHOVEN (1991). AND THERE IS MORE IN STORE.

DESIGNER OF REEF

ERINO TEZUKA WADE WAS BORN IN JAPAN WHERE SHE GREW UP IN AN ARTISTIC ENVIRONMENT. AS A YOUNG ASPIRING DESIGNER, SHE MOVED TO THE UNITED STATES IN 1994 AND COMPLETED HER DEGREE IN FINE ARTS AND INTERIOR ARCHITECTURE AT THE PRESTIGIOUS ACADEMY OF ART UNIVERSITY IN SAN FRANCISCO, CA. TODAY SHE IS BASED IN BOSTON AND CONTINUES TO INTEGRATE REFINED DESIGN PRINCIPLES WITH HIGHLY ENERGETIC CREATIVITY.

DESIGNER OF ASTOR

SUSTAINABILITY

At OASIQ, we strive to provide the most exquisitely crafted, high-performance outdoor furnishings available on the market. To that end, we are incredibly careful with our material sourcing. The majority of the metal utilized in our furnishings is procured from Taiwan, which produces the bulk of the world's most advanced semiconductors and is specially equipped to provide the most durable metal possible. In addition, 50% of the metal used in OASIQ furnishings is recycled or recyclable—a fact that has a variety of benefits. Metal recycling not only preserves natural resources by reducing the extraction of virgin raw materials but also conserves energy—recycled steel uses 60% less energy while recycled aluminum uses 95% less energy than manufacturing with crude resources.

Likewise, our extensive range of outdoor furnishings that employ teak now only utilize the renewable resource harvested from ecologically cultivated plantations. Our commitment remains to deliver durable, high-quality weather-resistant hardwood to both our residential and hospitality clients while contributing to the conservation of natural forests and the promotion of biodiversity."Historically, we have sourced our teak from Southeast Asia and Indonesia under the highest standards, including government approvals, appropriate licenses, and FSC certification.However, with the rise in illegal logging and the decline of natural forests, we shifted our focus to more sustainable operations that adhere to rigorous environmental and social standards," says Tony Peng, Managing Director of OASIQ. "Moreover, transitioning to exclusively employing plantation teak enables us to maintain superior quality control through optimized growth rates. In line with our dedication to sustainability, we achieved a significant milestone in 2023 by ensuring 75% of our packaging materials are either recycled or recyclable, and we have completely phased out the use of styrofoam."

The advantages of using plantation teak are multifaceted. Plantation teak projects not only play a crucial role in carbon sequestration and the preservation of natural ecosystems, but they actively engage local communities—boosting employment opportunities and imparting valuable skills to the region. Furthermore, the increasing prevalence of responsibly managed teak plantations in areas with a history of deforestation not only safeguards the long-term viability of teak but also enhances market access for businesses that prioritize sustainably sourced materials.

Additionally, all of our products are BIFMA Certified—a voluntary standard instituted to ensure furniture is safe, durable, and performs exceptionally well. The criteria tested includes ergonomic measurements, sustainability guidelines, and performance testing, among others, for safety and buyer confidence purposes. At OASIQ, we make every effort to ensure our products are of the highest quality for any sector—from commercial to residential.

SKILL AND DEDICATION

OASIQ finds inspiration in nature to craft outdoor furniture for people. Behind the scenes are the people whose skills and dedication help to achieve our vision at factory level. They form the backbone of our company.

Our factory in Thailand has been specialised in the manufacturing of materials for outdoor use since 2001. Every aspect of production is handled by specialists in their field of expertise. The cutting of the steel and aluminium parts, the moulding and joining of the teak components, the hand polishing and powder coating, the quality control at every stage - every step is carried out in-house.

CRAFTSMANSHIP

OASIQ relies on the skills of people who pay meticulous attention to detail to create the top-quality furniture discerning customers expect. Traditional working methods that rely on craftsmanship, such as hand weaving, are used side by side with state-of-the-art modern technology to produce outdoor furniture that is both sturdy and perfectly finished. Personal attention is given to every piece of furniture before final approval.

Q FOR QUALITY

Quality is in our DNA. OASIQ's roots can be traced back to a long tradition of craftsmanship in fine leather, sturdy metal parts and weatherproof textiles for equestrian sports. This makes us especially qualified to meet the high demands made on outdoor furniture. The state-of-the art materials we use are guaranteed to endure the elements, as well as to meet the high standards of comfort and flexibility modern life sets.

SANDUR

With the SANDUR collection, it feels as though you're suspended in mid-air—the chic collection of seating options offer a level of comfort that's hard to beat. The sensation of ultimate relaxation is achieved through a thoughtful design featuring a unique open weave that reduces contact with hard surfaces for a light, almost floating experience. Its striking appearance ensures style, while the distinctive patterns enhance the airy, breezy feel of the design. Supported by a sleek tubular stainless steel frame, the durable, weatherproof rope weave is meticulously handwoven by skilled artisans, each dedicated to exceptional craftsmanship. Available in a selection of chic color combinations, the SANDUR collection is the perfect choice for any outdoor space, bringing both comfort and elegance to your environment.

RIAD

Inspired by the mid-20th century designs of French designer Mathieu Matégot, the RIAD collection is defined by the transparency and lightness of its perforated metal design. The softly curved perforated aluminum frames, tactile rounded teak armrests, and weather-resistant, luxurious cushions come together to form a beautifully proportioned modular sofa system—perfect for unwinding and enjoying outdoor moments in style. Available in three chic colors—anthracite, white, or pastel green—RIAD includes an eye-catching club armchair, a two-seater sofa, and six versatile seating modules, offering virtually endless design possibilities. Completing the collection, a rectangular coffee table and a square side table with either matching ceramic or contrasting teak tops add the perfect finishing touch to this elegant and inviting outdoor lounge set.

CORAIL

The CORAIL collection’s vibrant palette of colors provides endless possibilities for creative expression. Whether mixing and matching hues to create a playful blend of pastels, creating bold contrasts with black and white, or opting for a harmonious monochromatic look, Corail can deliver on any aesthetic. Compact and versatile, the CORAIL chairs and tables are perfect for urban gardens, balconies, or any outdoor space. Crafted with sturdy aluminum slats, the chairs offer exceptional comfort, whether with or without cushions. Their lightweight design makes them easy to move and reposition, while the tables are thoughtfully designed for easy disassembly and compact storage.

COCO

Introducing the latest showstopper: a chair that exudes the magnetic presence of a true style icon. COCO’s allure is undeniable from a distance, yet utterly captivating up close. Designed to make a bold statement, the chair infuses an effortless air of leisure to any outdoor setting, where moments of enjoyment are always at hand. COCO’s distinctive appeal lies in its striking material composition—a sleek powder-coated aluminum frame paired with aluminum seat panels in harmonious tones. Elegant faux teak legs offer the perfect contrast.

SETTING THE NEW STANDARD FOR OUTDOOR DINING.

BRYGGEN

The Scandinavian-inspired BRYGGEN collection takes its name from the iconic, eponymous UNESCO World Heritage Site. The stools are expertly crafted to “dock” seamlessly beneath any bar table or counter, whether in a home, restaurant, or hotel setting. Constructed from just two materials—rich teak and stainless steel—each BRYGGEN stool embodies a minimalist ethos, blending functionality with a sense of hygge. The collection offers a refined solution for effortless living.

HAMILTON

The HAMILTON collection beautifully blends contemporary design with the enduring quality of Grade A teak. Each piece is meticulously crafted from a single, substantial slab of teak, ensuring precise, clean lines and graceful curves that offer both exceptional back support and a comfortable armrest. Perfectly suited for both indoor and outdoor spaces, the HAMILTON collection elevates any environment with its sophisticated elegance and inviting comfort.

SKAGEN

At the intersection of modern design and understated elegance, the SKAGEN collection reimagines classic Scandinavian furniture. Expertly crafted teak pairs seamlessly with handwoven outdoor rope to create a dining chair collection that exudes both contemporary flair and enduring style. Staying true to its Scandinavian heritage, SKAGEN combines organic curves with clean, minimalist lines, delivering not only functional beauty but exceptional ergonomic comfort. The versatile dining chairs are ideal for both indoor and outdoor spaces. The collection is beautifully complemented by a generously proportioned dining table with a slatted teak top or a substantial extending table that accommodates up to twelve—perfect for larger gatherings and entertaining. To complete the look, a striking deck chair and footstool with weatherproof cushions echo the design of the dining chairs, further enhancing the cohesive, refined aesthetic of the SKAGEN collection.

MARO

Ready to redefine the art of relaxation? The MARO collection showcases a beautifully proportioned teak frame, expertly crafted to support luxuriously oversized cushions for an indulgent lounging experience. The plush, fitted cushions offer unparalleled comfort, while the clean, handwoven rope details add a playful contrast to the sturdy teak structure. With its modular design, MARO delivers the versatility you expect from modern outdoor furniture. Whether outfitting a terrace with a welcoming sofa and oversized club chairs, or creating a sophisticated, club-like atmosphere with various chaise lounge and corner seat combinations, MARO transforms any space into an inviting retreat perfect for entertaining.

ATTOL

The ATTOL collection presents an attractive array of outdoor side tables, thoughtfully crafted in a diverse range of shapes, heights, and weather-resistant materials. The collection's versatility allows for unparalleled design flexibility, effortlessly adapting to and enhancing any outdoor space.

TEAK
Round teak tables in three varying heights can be grouped to form one tiered table or split up into convenient side tables.

ALUMINUM
Powder-coated aluminum side tables in three practical heights and two attractive shapes. Easy to use whenever and wherever required.

SERAC & CERU

The SERAC tables redefine versatility in compact spaces, offering unmatched adaptability that effortlessly transforms a small terrace into a welcoming gathering spot or a cozy rooftop dining area with ample room to spare. With six possible combinations including two elegant finishes, and virtually endless configurations, the possibilities are truly limitless.

The CERU tables expand the possibilities of compact spaces with exceptional versatility. The geometric forms are offered in a range of heights, sizes, and widths to ensure unparalleled design flexibility. Adaptable by nature, these tables can seamlessly transform a modest terrace into an inviting gathering space or a tranquil rooftop dining area, all while maintaining an open, airy feel.

DIUNA

DIUNA masterfully balances the elegance of sleek, clean lines with soft, organic curves, highlighting wood’s stunning sandy grain. Slim, layered teak panels are meticulously crafted to ensure the furniture is surprisingly lightweight without compromising on strength. Designed for convenience, each piece in the collection is stackable, offering hassle-free storage. With DIUNA, dining, lounging, and sunbathing are transformed into a sophisticated teak experience, where style and comfort seamlessly intersect.

REEF

REEF is a uniquely versatile table that is suitable for a variety of occasions and complements a range of styles. Its signature crossbar design adds both structural strength and distinctive character. The REEF collection offers an array of tables with either aluminum or stainless steel frames, each thoughtfully paired with a durable teak top for visual contrast. For a more modern aesthetic, a brushed stainless steel and an aluminum option are offered, both featuring a sleek, weather-resistant HPL surface that enhances the tables' modern appeal.

MACHAR

The MACHAR table commands attention as the centerpiece of any outdoor dining area, showcasing streamlined proportions and sleek lines. Available with either black or white aluminum frames and matching legs, or with striking teak legs for a bold contrast—it offers versatile styling to suit any aesthetic. The table top—which is offered in a choice of teak, Nordic Black, Black, or White—is finished with a durable, weather-resistant HPL surface, ensuring lasting beauty and function. With its generous size and striking presence, the MACHAR table is designed to make a lasting impression.

ASTOR

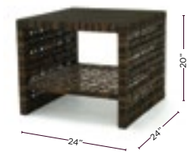

The ASTOR collection of seating and tables draws inspiration from the timeless beauty of Japanese kooshi—traditional wooden screens renowned for their serene elegance. Crafted from durable aluminum and all-weather wicker, each piece features an intricate cut-out motif that gracefully veils the space, offering both privacy and a sense of tranquility, while allowing air and light to flow freely. The collection epitomizes the Zen aesthetic, blending form and function in a harmonious celebration of simplicity and refined craftsmanship.

GRACE

The GRACE collection of tables and a trolley combines the natural warmth of teak with the streamlined, modern appeal of metal. Available in either stainless steel or powder-coated aluminum, GRACE creates a striking contrast between the richness of wood and the durability of metal. For a personalized touch, the aluminum option is offered in a range of powder-coated finishes, allowing for the selection of the perfect color to complement any style.

MATERIALS & SWATCHES

Much of OASIQ's furniture is crafted from aluminum—a lightweight, low-maintenance, and weather-resistant material. A simple soap and water solution is all it takes to keep it gleaming. This versatile material is perfect for outdoor use, as it naturally forms a protective oxide layer that guards against rust and corrosion. All aluminum products in the OASIQ collection are polished by hand, which produces a stunning finish when painted. After polishing, the furniture is cleaned, chemically treated, and painted using an electrostatically applied polyester powder coating. This gives the furniture a very strong finish, making it scratch-resistant and weatherproof. In addition, the majority of the metal utilized in our furnishings is procured from Taiwan, which produces the bulk of the world's most advanced semiconductors and is specially equipped to provide the most durable metal possible. Over 50% of the metals used in OASIQ furniture are recycled or recyclable—and recycled aluminum uses 95% less energy than manufacturing with crude resources.

All stainless steel products in the OASIQ collection are made of Grade 304 and 316 stainless steel. This metal is composed of various alloy elements such as iron, nickel, and chromium. When exposed to air, a hard chromium-oxide layer is formed that protects the metal against corrosion. OASIQ's stainless steel products have been hand-brushed to give their surface a satin-like shine that feels very smooth. The result is a corrosion-resistant surface that is easy to clean and maintain. The majority of the metal utilized in our furnishings is procured from Taiwan, which produces the bulk of the world's most advanced semiconductors and is specially equipped to provide the most durable metal possible. In addition, over 50% of the metals used in OASIQ furniture are recycled or recyclable—and recycled aluminum uses 95% less energy than manufacturing with crude resources.

OASIQ's furniture is crafted from Grade A teak and sourced from sustainably managed plantations. Teak's natural oils and resins form a protective barrier, safeguarding the wood from water damage, such as warping, rotting, and mildew. In addition, its oils also make the hardwood resistant to seawater and pests such as termites and other insects. We only utilize Grade A teak harvested from ecologically cultivated plantations. Our commitment remains to deliver durable, high-quality weather-resistant hardwood to both our residential and hospitality clients while contributing to the conservation of natural forests and the promotion of biodiversity. OASIQ's teak furniture is delivered to the customer untreated and will slowly change color to a silvery grey that perfectly matches its natural surroundings.

Walnut wood is characterized by its rich, chocolate-brown hue, it boasts a stunning grain pattern that adds depth and sophistication to any furniture design. Its moderate density and strength make it ideal for creating sturdy yet graceful furniture pieces that endure through generations. Moreover, walnut wood ages gracefully, deepening in color and developing a beautiful patina over time, further enhancing its allure and character.

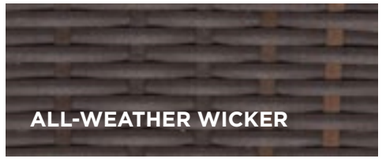

HPL (high pressure laminate) is a flat panel, based on thermosetting resins and wood-based fibres. These panels are manufactured under high pressure and at high temperatures. This process ensures that the resins in the core layers of the panel and on the surface bind with each other. The result is a homogenous panel of high density, which is very strong, durable and weatherproof.

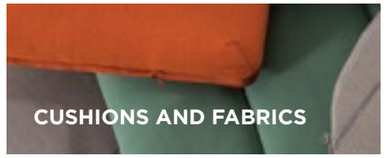

OASIQ ceramic slabs are produced with an innovative technology, by compacting the material and then firing it in an electric kiln at temperatures over approx. 1220°C, suitably designed to ensure the product evenness. The slabs manufactured in this way are perfectly flat and can later be cut or trimmed with total size accuracy. The ceramic slab is highly scratch and abrasion resistant. It is frost resistant and suitable for all weather conditions.

All rope used in OASIQ woven furniture is manufactured from a combination of high performance Textilene® and solution-dyed Diversatex™ Olefin outdoor yarns. This rope is tough and durable, yet soft and supple. As the yarns are dyed all the way through and have excellent UV-resistant properties, these ropes will remain colourfast for many years and will withstand the rigours of outdoor use with style and elegance.

All-weather wicker is used in our Astor collection and it consists of a material called Polypeel. It is a synthetic, tensile-strength polyethylene fiber. It is 100% recyclable, non-toxic, highly durable and insensitive to UV rays, temperature fluctuations an harsh weather conditions. The best part is, the material is resistant against rain, salt water and chlorine, so it's safe to be used at the beach and swimming pool side.

OASIQ cushions are covered with Sunbrella's solution-dyed acrylic textiles. It is specially engineered to resist fading and wear from prolonged sun exposure, rendering them perfect for seating areas in harsh UV environments. These fabrics have been specially developed for outdoor use and are made of solution-dyed yarns. The Colorfast nature of these fabrics ensures the color is deeply embedded within the fibers, preventing fading even after extended exposure to the elements. This unique coloring process guarantees optimal UV resistance and durability. Most of the covers can be removed for cleaning. The fabrics have also been treated with a water-repellent Teflon layer.

The inner cushions are made of a special weatherproof foam called QuickDry Foam. This is a cutting-edge, high-performance foam designed specifically for outdoor cushions. Manufactured from carefully selected high-grade material, QuickDry has extreme durability and strength. Its unique porous open-cell structure allows water to drain very rapidly and fresh air to circulate freely and continuously. OASIQ cushions are perfect for all year use.

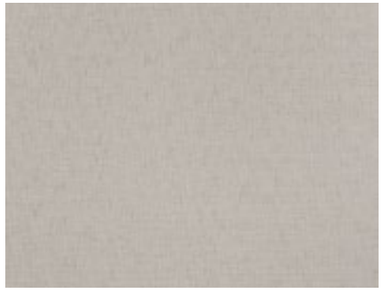

Protect your investment with our high-quality furniture covers. Our covers are durable, stylish, and easy to use. Don't let the weather ruin your outdoor fun - order now and be ready for whatever Mother Nature throws your way. Our covers are made in the USA with Hydrofend® fabric by Glen Raven, the maker of Sunbrella®.

Hydrofend® fabric offers exceptional water resistance, providing up to six times greater repellency than uncoated fabrics while remaining breathable to prevent condensation and potential damage. Made from solution-dyed polyester, it ensures excellent color retention, high tear and break strength, and superior outdoor performance. A proprietary solvent coating on the back enhances durability by preventing abrasion, protecting underlying surfaces, and reducing fraying during fabrication. Designed to withstand various climates, Hydrofend resists mold and mildew growth, maintaining its appearance and longevity. Additionally, it is bleach-cleanable for easy maintenance, ensuring durability without compromising its integrity.

UPHOLSTERY CARE AND CLEANING

One of the best ways to keep Sunbrella® fabrics looking good is to brush off dirt before it becomes embedded in the fabrics and wiping up spills or cleaning soon after a stain occurs. The quicker you clean spills and stains, the easier they can be to remove.

Try this first... With a new spill or stain on your Sunbrella fabric.
- Blot (don't rub) liquid spills with a clean, dry cloth. For oil-based spills, apply an aborbent such as corn starch, then remove with a straight edge.
- Spray on a mild cleaning solution of soap (such as Dawn or Woolite) and water.
- Rinse the fabric thoroughly to remove all soap residue.
- Air dry.

Try this next... If your first try doesn't get the stain completely out. Though Sunbrella fabrics can be used both outdoors and in, your cleaning methods should differ slightly indoors and out because of the fabrication and manufacturing of the furniture. We recommend using the appropriate cleaning instructions for your application.

CLEANING REMOVABLE FABRIC

Hand Washing

Soak fabric in a solution of ¼ cup mild soap per gallon of lukewarm water. Use a sponge or very soft bristle brush to lightly agitate the stain. Then rinse thoroughly to remove all soap residue, and allow fabric to air dry.

Machine washing

Some removable casings can be washed in the washing machine, however consult the furniture manufacturer before removing the casing as cushion construction may vary. To wash, first close all zippers. Machine wash in cold water on the delicate cycle with normal amounts of mild laundry detergent. For severe mold or mildew, add 1 cup of bleach. Allow fabric to air dry.

CLEANING NON-REMOVABLE FABRIC

Prepare a solution of ¼ cup mild soap per gallon of lukewarm water. Use a soft bristle brush to clean, allowing the cleaning solution to soak into the fabric. Rinse thoroughly to remove all soap residue and allow fabric to air dry.

Mold and mildew stains

Sunbrella fabrics do not promote mildew growth, however, mildew may grow on dirt and other foreign substances if not removed from the fabric.

To remove mold or mildew:
- Prepare a solution of 1 cup of bleach and ¼ cup mild soap per gallon of water.
- Spray on entire area and allow to soak into the fabric for 15 minutes.
- Clean entire surface area with a sponge, clean towel or very soft bristle brush.
- Rinse thoroughly to remove all soap residue.
- Air dry.

For severe mold/mildew growth, bleach quantities may be increased.

It is best to clean the entire surface area of the fabric to avoid water rings and stains.

For more information visit WWW.SUNBRELLA.COM

Retreating Sunbrella Fabrics

Sunbrella fabrics are treated with a proprietary water and stain repellent finish that is designed to last for several years, but may require replenishing after a thorough cleaning. Glen Raven® recommends 303® Fabric Guard™.

For more information, visit www.303products.com.

Applying 303 Fabric Guard:
- Clean Sunbrella fabric, using one of the cleaning methods.
- Allow Sunbrella to completely air dry.
- Apply 303 Fabric Guard in a well-ventilated area following instructions on the container.
- Apply 303 in a thin, even coat and allow fabric to dry completely.
- Apply a second thin, even coating of 303. (Two light coatings are more effective in restoring fabric water resistance than a single heavy coating.)

Helpful Hints

Avoid scrubbing, hard bristle brushes or any other abrasive cleaning method.

Sunbrella should only be allowed to air dry.

Protect the area around your Sunbrella fabric when using bleach or other chemical solvents that may discolor non-Sunbrella fabrics. Always rinse Sunbrella thoroughly.

Bleach can have harmful effects on the natural environment around you. Please follow all safety and environmental precautions according to the bleach label.

If fabric has some wrinkling, use an iron on the synthetic setting. As iron temperatures may vary, first test a small inconspicuous area before ironing the entire piece.

DO NOT use a steamer or an iron set to the steam setting.

Stain	Recommended Cleaning Solutions	Commercial Cleaner
Berry	Combine 1/4 cup dish-washing liquid and 1/2 cup - 1 cup white vinegar per 1 gallon water.	Upholstery cleaner such as Resolve®
Bird droppings Catsup or Mustard, Coffee, Cola, Egg (raw), Grape Juice, Milk, Tea	Combine 1/4 cup dishwashing liquid per 1 gallon water.	Upholstery cleaner such as Resolve®
Beer Food Color Urine Vomit	Combine 1/4 cup dish-washing liquid and 1/3 cup white vinegar per 1 gallon water.	Upholstery cleaner such as Resolve®
Butter, Grease, Oil Paint Wet/ Dried (latex, oil, lacquer) Salad Dressing, Shoe Polish (liquid), Suntan Lotion Tomato Juice Tree Sap	Apply cornstarch as an absorbent, remove excess with a straight edge, clean up residual with dish-washing liquid and water.	Upholstery cleaner such as Resolve® or strong degreaser
Blood (dried)	Combine 1/4 cup dishwashing liquid and 1/2 cup - 1 cup ammonia per 1 gallon water.	Hydrogen peroxide and upholstery cleaner such as Resolve®
Charcoal Pencil Marks	Vacuum, then clean with 1/4 cup dishwashing liquid per 1 gallon water.	Upholstery cleaner such as Resolve®
Chewing Gum	Treat with isopropyl alcohol. Then clean with 1/4 cup dishwashing liquid per 1 gallon water.	Upholstery cleaner such as Resolve®
Chocolate	Combine 1/4 cup dish-washing liquid and 1/2 cup hydrogen peroxide per 1 gallon water.	Upholstery cleaner such as Resolve®

Stain	Recommended Cleaning Solutions	Commercial Cleaner
Crayon	Treat with isopropyl alcohol. Then clean with 1/4 cup dishwashing liquid per 1 gallon water.	Carbona™ Stain Devils for Ink and Crayon
Ink (india, ballpoint) Nail Polish	Treat with volatile solvent (acetone 100%). Then clean with soap and water and rinse thoroughly	Upholstery cleaner such as Resolve®
Kool-Aid	Combine 1/4 cup dishwashing liquid per 1 gallon water and rinse thoroughly	Upholstery cleaner such as Resolv
Iron Rust	Treat with CLR® and rinse thoroughly.	Rust remover such as CLR®
Mildew	Combine 1/4 cup dishwashing liquid and 1 cup bleach per 1 gallon water.	No commercial cleaner recommended. A stronger percentage of bleach may be necessary for severe mildew.
Shoe Polish (wax)	Apply heated iron over towel. Apply cornstarch as an absorbent, remove excess with a straight edge, clean up residual with dishwashing liquid and water.	Upholstery cleaner such as Resolve®
Wax (candle)	Apply heated iron over towel. Treat with isopropyl alcohol. Then clean with 1/4 cup dishwashing liquid per 1 gallon water.	Wax remover such as Carbona™ Stain Devils for Glue, Gum, and Nail Polish
Wine	Combine 1/4 cup dish-washing liquid, 1/3 cup white vinegar and 1/2 cup - 1 cup isopropyl alcohol or hydrogen peroxide per 1 gallon water.	Upholstery cleaner such as Resolve®

AFTER CLEANING WITH THESE RECOMMENDED SOLUTIONS, PLEASE RINSE FABRIC THOROUGHLY AND ALLOW TO AIR DRY.

“EVERYBODY HAS A CREATIVE POTENTIAL AND FROM THE MOMENT YOU CAN EXPRESS THIS CREATIVE POTENTIAL, YOU CAN START CHANGING THE WORLD.”

PAULO COELHO
AUTHOR, LYRICIST, POET

OASIQ's warranty policy for our teak, stainless steel and aluminum frames is three years and one year for our cushions. The warranty policy covers manufacture defects with normal usage. The warranty for the powder coating is two years and covers peeling, blistering or cracking. Teak is a naturally oily wood and in some instances may stain the cushions that OASIQ will not be held responsible for. Fine cracks in teak are normal occurrences that are non-structural and do not yield the product defective. OASIQ is not responsible for maintenance performed on any piece of furniture except otherwise done by OASIQ. All claims must be submitted with a photograph and repair and/or replacement will be at our discretion. All of our furniture is made to order and is subject to a 30 percent restocking fee for all returns. Please note that all custom orders are final sale and will not be accepted as a return.
